Software Developer and Cybersecurity graduate with 7+ years of experience developing enterprise banking applications and customer-facing financial systems.

Experienced in secure software development, web applications, backend systems, and database technologies using C#, .NET, Java, Python, C++, and SQL platforms. MSc in Computer Science for Cybersecurity from Oxford Brookes University and CompTIA Security+ certified.

Seeking opportunities in cybersecurity, SOC operations, application security, or secure software engineering.

EDUCATION

Oxford Brookes University

MSc Computer Science for Cybersecurity

2022 - 2023

Oxford, UK

Modules

- Malware analysis.
- Secure programming
- Operating Systems Security.
- Enterprise Networking.
- Secure Systems Architecture.

Thesis: “RSA- Really Staying Alive” Research project analyzing RSA implementation, security considerations, and comparison with Elliptic Curve Cryptography.

National University of Singapore

BEng Electrical Engineering

2010 - 2014

Singapore

Modules

- Power electronics.
- Electric Drives and Control.
- Physics for Electrical Engineers.
- Signals and Systems.
- Programming Methodology.
- Programming for Computer Interfaces.
- Data Structures and Algorithms.
- Engineering Professionalism.

Thesis: “Optical meta-surface to display a 3-D image in air” investigating the optical properties of ‘metasurfaces’ and how they alter the path of rays of light.

WORK EXPERIENCE

R-ECO (Renewable Energy Cooperative)

Heat Pump Heating System Designer

2024 - 2026

Oxford, UK

- Bespoke design of all Heat Pump Heating Systems within the scope of MCS (Microgeneration Certification Scheme) regulations.
- Design of heat emitters as part of the heating system.
- Heat Pump System performance estimates, Heat Loss Reports, Emitter Design Reports and Heat Pump Quotes.
- Working with sales operations teams to ensure that systems are designed according to client needs.

Freelance work

Freelance jobs via Upwork

2023 - 2024

- Various software development and programming jobs, including:
 - Updating legacy C++ code to work with newer versions of C++
 - Bug-testing of a new software for a client
 - Python, Bash and PowerShell scripting work.

Bank AL Habib Limited*IT Officer Grade I (Programmer/Software Developer)***2015 - 2022***Karachi, Pakistan*

- Developed and maintained internal banking applications used by operational staff across multiple departments, improving document handling and workflow management.
- Contributed to digital banking and financing systems supporting customer onboarding and loan processing operations.
- Development and maintenance of a Web banking application, using ORACLE Service Oriented Architecture and ORACLE Banking Digital Experience (OBDX).
- Software and web development work in MVC.NET C#, JAVA, Database work in IBM DB2, Microsoft SQL Server and MySQL.
- Interviewing and onboarding new team members.

COURSES AND CERTIFICATIONS**CompTIA****2025***SY0-701 - CompTIA Security+ certification exam*

- A certification that showcases professionals' capabilities in securing networks, applications, and devices, ensuring data integrity, confidentiality, and availability.

Udemy**2019***Machine Learning A-Z™: Hands-on Python & R in Data Science*

- Covered an array of topics in Machine Learning, including Dimensionality Reduction, Reinforcement Learning, and Deep Learning, using Python and R programming languages for instruction.

MITx**2018***Introduction to Computational Thinking and Data Science*

- Course on Data Science concepts, Inferential Statistics, and Dynamic programming techniques.

Introduction to Computer Science and Programming Using Python

- An introductory course on Computer Science and Programming; Covered Computational thinking and algorithms, and Python programming practices.
